HEALTHWORKS

The primary purpose of Healthworks of Illinois is to assure the Department of Children & Family Services, (DCFS) wards who are in substitute care, receive comprehensive quality care. Healthworks of Illinois Program services are similar to the Family Case Management services offered at FCHD.

The Healthworks nurse works with foster parents of wards under the age of 6 yrs, offering services to ensure that the child is receiving adequate health care, dental, hearing, vision or any services the child may need. The Healthworks nurse also works with the DCFS caseworkers keeping them aware of the child's healthcare needs and of any other services the child may be receiving or need.

In addition, the biological parents are contacted in order to acquire a complete health and family history. Complete medical records on each child is obtained, and every 6 months a case review is completed and sent to the caseworker.

HealthWorks of Illinois agencies assure six key services for each eligible child:

- Initial Health Screening
- Comprehensive Health Evaluation
- Assignment to a Primary Care Physician
- Referral to specialty and subspecialty care
- Medical Case Management
- Initiation of Health Passport record for documentation of health care.
